Good Hearted Cabbage. A well known expert in cooking encountered trouble in a certain community the other afternoon when she prepared to lecture at the Mothers' club. Her subject was "How to Cook." She began by telling how much a man appreciates good cooking, and then she proceeded to give various recipes.

Among the first was one for cabbage. "To have this best," began the lecturer, "take a good hearted cabbage and..."

At this point a young matron interrupted. She was eager to get all the information possible. "Tell me, please," she spoke up, "how is one to know the disposition of a cabbage?"

BIG CROWD WATCHES MILITARY COMPANY AT OUTDOOR DRILL

Second Separate Company Makes Fine Showing—Total Enlistment Now Ninety-five Men.

Over two thousand people crowded East Milwaukee street tonight to watch the entire Second Separate company run through an hour's drill out of doors, and over two thousand people went away convinced that Janesville will stand to the front one of the crack militia companies of the state. While the city has shown great interest in the local unit, last night a large number of people to see what has been accomplished with the men in the few drills which they have had. Through the many difficult movements of close-order formation, the company went without faltering, with the attention of every man on the parade ground.

With a more complete knowledge of what has been done with the Second Separate company, and of the way the men are gradually becoming soldiers in the true sense of the word, a large number of the young men who watched the drill last night. Before six o'clock this morning a terrific pouring on the door of the captain's office in the armory, awakened Lieutenant Rau, who discovered an eager recruit anxious to enlist. Other applicants have come in fast, but many have been rejected by Dr. Farnsworth, the examining physician, because of physical disability.

With the enlistment of four men yesterday, the company's ranks are now thirty-five men, just short of the war strength requirements. Many more than 100 men must be recruited, however, that about twenty men will be dropped in the physical examinations given when the company enters the service of the regular army. Twenty more men must be recruited as soon as possible; the young men of Janesville have responded so far, but another twenty must come forward. Janesville must put out a call for a crack company, but a war unit only can talk to Captain Caldwell or Lieutenant Rau at the company armory, and enlist now.

Olga O'Brien and Albert Weissler of Brooklyn, New York, and Otto Hansen and Mathew Ryan of this city, bring the total enrollment up to ninety-five men. Karl Hargreaves was expected to complete his enlistment today.

SEND REPORT BLANKS TO RURAL TEACHERS

County Superintendent is Also Gathering Information on Social Work in District Schools.

Annual report blanks are being mailed to the rural school teachers of Rock county from the county superintendent's office this week. Fifty or more questions and schedules relative to attendance and grading must be answered and one copy of the report filed with the clerk of the district board and another with the county superintendent.

In addition to the annual report Superintendent Antsdel is also sending blanks for the purpose of determining the social work carried on in the various rural schools. Such questions as the following are asked: "How many mothers' meetings held this year in your district?" "How many mothers' meetings held in the district?" "What were the benefits derived?" "Were any evening meetings or programs held in the district?" "What other meetings or programs have been held?" "How much money was taken in at these meetings and what was purchased with the money received?" "Have you served warm lunches to children?"

PETITIONS FOR OILING ARE NOW COMING IN

Seven Additional Requests Received to Date By City Clerk Hammarlund.

An influx of petitions for the oiling of streets throughout the city has been noticeable at the city hall during the past week. In addition to those announced Friday, property owners on the following thoroughfares have expressed their willingness to pay the small cost for oiling to eliminate the dust nuisance and to place the streets in fronting their properties in the most respectable and passable condition: Ravine, Jackson to Chatham. Fifth Avenue, Glen to Walker. Jackson, Rock to Chatham. Park, Holmes to Western. Hyatt, Milton avenue to Prairie avenue. Prairie avenue, Glen to Walker. Center avenue, Eastern to River. It is being circulated between West Bluff and Mineral Point avenue, on Pearl street. There is also one on Chatham, between Pleasant and West Bluff streets.

FORMER FOOTVILLE MAN DIES AT MADISON HOME

Footville, April 11.—Word has been received here of the death of Charles Campbell, which occurred yesterday afternoon at his home in Madison at the age of eighty-three years. Campbell was for many years a resident of Footville and is very well known to the older residents of the community. In 1885 he moved to Brodhead where for many years he was engaged in the coal, wood and grain business. Three years ago he moved to Madison, where he lived until his death. He is survived by three daughters and one son. The body will be brought here for burial on Thursday. Services will be held at the Christian church at three-fifteen Thursday afternoon.

TWO IN MUNICIPAL COURT FOR BICYCLE SIDEWALK RIDES

E. O. Sievert, 209 Locust street, a northwestern railway man, was fined one dollar and costs, \$3.40, in municipal court this morning for riding his bicycle on a sidewalk. Sievert claimed the street was torn up and that he took to the sidewalk to make time. Lawrence Ryan, another victim of the crusade, pleaded guilty to the charge and was discharged, after paying court costs of \$2.40.

ROCK COUNTY BANK SECURES FOOTVILLE MAN AS CASHIER

J. M. Beck, formerly of the Footville State Bank, was elected cashier of the Rock County National Bank at a meeting of the board of directors of that institution held Tuesday afternoon at the Rock County National Bank. Mr. Beck comes to the city with a record of great success in the smaller bank, and in the eyes of the bankers is a most valuable addition, not only to banking circles but to the financial interests of the city at large.

Unappreciated Gallantry. Joseph H. Choate, former ambassador to England, always has had strong domestic tendencies, not the least lovable of his many lovable sides being a deep affection for Mrs. Choate. Every one has heard how, when once asked who he would rather be if not himself, he replied, "Mrs. Choate's second husband," but not every one has heard the comment of a certain London hostess when this delightful little bit of sentiment was repeated to her. The joke fell upon stony ground—the fate of so many American victimhoods in British lands. "But who is Mrs. Choate's second husband?" asked the hostess. "H. Marion Allen in Outlook."

## Prices Increased May 1st Order Now and Order Quick

We have expected a price increase right along and only the immense quantity being produced will enable us to sell at the May 1st price—we, of course, have no assurances that further increases in price will not be necessary.

Everything that goes into the Maxwell is the best—this we do know and can prove. The steel is the finest that money can buy—the motor—no finer, no tougher, no sturdier can be built according to our experience and the steeper the hills and the tougher the roads the more the Maxwell seems to like them.

Our April allotment will be delivered to us at the old price. That's agreed and that's fair to us and we are going to be fair to our customers.

—But—after May 1st, we can't buy a Maxwell for a penny less than the new price and we shan't sell you one for a penny less than \$665.

Come in—study this car—see if we are right or wrong about it.

When we say biggest value, we mean it and we can prove it by any known tests or standards. We put it up to you to judge after you consider these features.

## Maxwell Style Same as Highest Priced Cars

The Maxwell lines are pleasing to the eye. The design conforms exactly to the prevailing style, as illustrated by any number of high priced motor cars.

## Comfort to the Point of Luxury

The Maxwell car is roomy. It seats five passengers in comfort. There is plenty of leg room in front and rear. The long semi-elliptic Maxwell springs and the soft, extra-deep upholstery make riding easy.

## 150,000 Miles Not Unusual

There are Maxwell cars in daily use which have already run over 150,000 miles. That's of it—more than 20 years of average driving! There are Maxwell cars in the mountains and in sections where there are rough roads or no roads, that have gone 50,000 miles—50,000 miles that would wreck and tear most cars to pieces.

## The World's Endurance Champion

This record was set by a five-passenger Maxwell stock touring car, by running for 22,622 miles—44 days and nights—WITHOUT

## Maxwell Running Expense \$8.19 Per Month

Maxwell cars, on account of scientifically correct balance and light weight are very economical to operate. Hundreds of instances are on record, showing from 20 to 44 miles per gallon of gasoline. Mrs. M. J. Sealey—Professor, Oregon Agricultural College—has just completed a trip from Corvallis, Oregon to Boston and return—9,700 miles—(about 12 years of average driving). The total expense for gasoline, oil and repairs was 13¢ cents per mile—or the equivalent of \$8.19 per month.

## Complete Equipment—No Extras to Buy

Maxwell cars have every device and accessory for the greater convenience and comfort of the owner. Not a single thing is lacking! When you buy a Maxwell, no further investment is necessary.

## Economy is Cost Divided by Time

The reason why the Studebaker Four is the most economical four is because of the extra quality, the extra safety, the extra power, the extra low upkeep.

Extra safety means the extra feature of strength which takes the strain of the shock which wrecks the small cheap car.

Extra power means smooth, vibrationless operation, not the jarring, jerking, racking strains of over exerted power.

Extra low upkeep is the sum of the advantages mentioned above, and it is the sum of economy, and that is why Studebaker believes it is better to put a little more money and a great deal more quality in manufacturing a car like the Series 18 at \$985, and at the same time give you a seven passenger body, genuine leather upholstery and the same quality of fittings and equipment that you find in cars costing more than twice as much as the Studebaker Four.

We repeat that the Studebaker Series 18 is the most economical four in the world. Come in and ask for demonstration.

Vera Roehm (left) and Pearl Eaton.

Young lady pugs are rare and when they are remarkably clever boxers with real punches and also remarkably pretty they are even rarer. Miss Vera Roehm and Miss Pearl Eaton are all of that and they put on a fast and hard hitting bout in the Passing Show, now on the road. This would sound like a press agent yarn were it not for the fact that fight experts have watched the young ladies perform and have declared that they have as much class as many of the best prelim fighters. Miss Roehm, the hardest hitting of the two, declares that boxing should be taken up more generally among women.

#### MYERS THEATRE.

Hutson Auto Co. Buys House.

Tom Hutson of the Hutson Auto company, local Overland dealers, does not believe in doing things by halves, in arranging a place to present their movie show and lecture, "The Building of an Automobile," he bought out the Myers theatre for Thursday evening, April 12th.

The Myers theatre orchestra will be in attendance, and furnish the music. The entertainment will consist of a personally conducted trip through the world's greatest automobile fac-tory, an illustrated talk on motors, and motor construction, by C. D. Adams of Toledo, Ohio. Mr. Adams will demonstrate what takes place un-der the hood when you are driving your car—what makes the wheels go round. Special attention will be paid to the knight sleeve valve motor—its operation and construction.

These pictures also include a trip to the top of the world by automobile, or up Pike's Peak. Mr. Hutson says Janesville is very fortunate in secur-ing this attraction, as it is really something out of the ordinary, and has been presented in the largest cit-ies of the country. It is more than entertaining as it is highly education-al—in fact in most cities where an afternoon performance is given stu-dents dismiss in order that students may see these wonderful pictures. At Winterset, Ia., the schools were dis-missed at 10 a. m. in order that the students might inspect the reels and listen to Mr. Adams' explanations.

Admission will be free, but by tick-et only which may be procured by ap-plying to the Hutson Auto com-pany, or at the office of the theatre. No chil-dren under fourteen years of age will be admitted unless accompanied by parent.

### Crude Mining Methods.

Mica mining in the Nellore district, India, though a highly profitable indus-try, is carried on practically as it was by the natives a hundred years ago. The mica vein is followed up by un-derhand stoping, which results in the production of tortuous, wormlike holes sometimes extending to a depth of 300 feet below the surface. The mica ex-cavated is brought to the surface by a string of coolies working hand over hand on rudely constructed bamboo ladders. On account of the accumu-lation of water during the night when work ceases all sinking operations are delayed each morning for an hour or more while the water is being dipped out with buckets by coolies.

### "LILAC DOMINO"

#### SUCCESSFUL OPERA

Andreas Dippel's Big Success Seen at Myers Theatre Last Evening by Enthusiastic Audience.

"The Lilac Domino," a comic opera in three acts, presented at the Myers theatre last evening, proved to be a musical success of beauty, fun and fashion. It contained all the approv-ed musical elements and a host of new features to insure its success. The piece contained fully a score of brilliant songs, some of them catchy and others heart-reaching and roman-tic, while others were irresistibly comic and laugh-producing. A mer-ry-making, vivacious bunch of girls made up the chorus, who could sing and dance as well as look charming and display fashionable costumes. There was dancing of every variety from the Russian ballet to the mod-ern society steps. In the first act there was a bal-masque, in the second a daisant, and in the third a car-nival in which there was much dance and song. The large number of songs carried out a romantically youthful love story and gave opportunity for the display of some exceptionally fine voices. Bradford Kirkbride, one of the best light opera singers, was seen as "Count Andre" of the piece, and he impersonated the role excel-lently. His vibrant voice, registering every type of emotion, Grace Walsh, clean, high voice was a rare treat in the title role, and Marie Hamilton,

## Big League Presidents' Forecasts Full to the Brim With Optimism; Only U. S. In War Will Trouble

New York, April 11.—Replying to a request for a statement of their beliefs regarding the success of major league baseball this year, Ban Johnson, President of the American League, and John K. Tener, President of the National League, today made very optimistic forecasts.

Both are agreed that the only thing that can knock a hole in prospects is a declaration of war; and they are agreed that even in the event of this, the ball is going to be a struggle unequalled except in those years when the final weeks needed who should meet in the world's series. Neither is willing to place his faith in a certain club and Johnson goes pretty strong in predictions that Connie Mack will make his rivals step a little this summer.

Anyhow, there's optimism, which is something to say in the face of the international crisis, and following immediately on the years of turmoil which have shaken the national pastime to its foundations.

By JOHN K. TENER, President of the National League.

New York, April 11.—We anticipate a tremendously successful season for baseball this year. There is only one thing, the declaration of war, that will detract from the game's popularity.

We look forward to the National League race being as sensational and close as it was in 1915 and 1916. While I am not unconscious of the fact that the Giants look to be an exceptionally strong combination, offensively and defensively, I cannot believe they will make a runaway race of it. Even though the twirling corps should perform in superior manner from the start I do not believe anything of that sort is likely.

Boston and Philadelphia are sure to be contenders for the flag. The champion Brooklyn club will take the field this year with every player who gave strength last season and in addition, Manager Robinson seems to have picked up some youngsters who will certainly make the team look better than it did a year ago. This boy, Pabst, has played a remarkable fielding game and also has hit exceptionally well in training.

Boston was strong last year except in hitting. Even in that department, the strength was there, but it seemed impossible for them to get started when the hits counted.

The weak link not to be overlooked, President Dwyer of the Pittsburgh club picked up several promising youngsters last year, and when the season closed his team was playing Pittsburgh in the league. The Pittsburgh is building from the ground, Manager Callahan has several good pitchers and catchers and enough outfielders to form a nucleus for a strong team. Cincinnati is exceeding great results from Manager Mathewson, and I personally believe the Reds will do better than they have for a long time. I have great faith in Marv.

Both Miller Huggins in St. Louis and Fred Mitchell in Chicago are trying to reconstruct new teams from the best of the old and new material. Both are good managers and I would not be surprised if each developed a strong team. The club owners will spare no expense or effort to give their respective clubs the best players it is possible to secure.

By Ban Johnson, President of the American League.

Chicago, April 11.—In the history of the American League there never was a year when the organization was so well equipped for a championship race. A few days ago I received a letter from Connie Mack in which he gave me the assurance that he had a vastly improved team over the club of last year and one that was sure to prove a factor in the championship race. If we can accept this declaration, then there are eight contenders well balanced for a gruelling fight, beginning today.

Everyone will concede that Chicago, Boston, New York and Detroit are bound to be prime favorites. The Cleveland club has been greatly strengthened, which is attested by the fact that Morton has shown all the strength he developed in the beginning of last season. Joe Wood claims his right arm has been well restored, so with Coale, Kiefer and Klopfer in support, Cleveland is sure to have a formidable staff of pitchers.

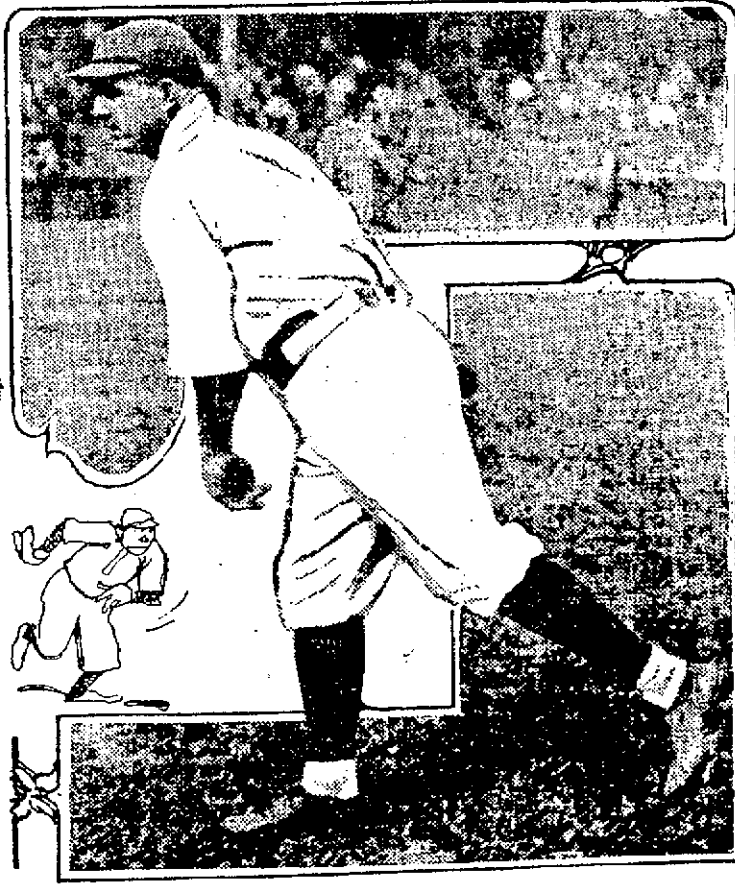

Many of the best players out of the last season, who were carried off by the prize had it not been for the innumerable accidents which have occurred during the summer.

The St. Louis club, under the leadership of Jones, must be reckoned with. Had the Browns started their tremendous drive earlier in the season, the pennant might have gone to the organization representing the season by the big bridge.

We all know of Boston's worth and the fighting spirit of the Senators, under the guidance of that wise and skillful manager, Clark Griffith.

War may place an indelible mark upon our nation, but it cannot dampen out a contest that is sure to be keen, thorough and exciting from the top of the ball until the finish in October.

## FRED MITCHELL, CUB LEADER, SAYS JIM VAUGHN'S TO BURN UP LEAGUE

Jim Vaughn.

Fred Mitchell, Cub boss, is already working wonders with the material he has on hand and he has shown that he is a wonder in working with his pitchers. Mitchell is enthusiastic over the form shown by big Jim Vaughn and declares that Vaughn will be the league's leading southpaw this season. Mitchell is confident that the Cubs will be strong in the pitching department.

## GREEN COUNTY GERMAN FAIL TO GET SECOND PAPERS

(SPECIAL TO THE GAZETTE.)

Monroe, Wis., April 11.—Eleven applicants for naturalization at the coming session of the circuit court on June 24 have been hit by the ruling that German subjects cannot be admitted to citizenship until after the settlement of the present crisis with Germany. Among this number are five who have been residents of Green county for nearly a half century and who are among the wealthiest and best known citizens. They are: Frederick Hine of Brodhead, coming here in 1874; Herman Dreyer of Albany, who came to America in 1870; Gustaf Mohns of Monroe, coming to this country in 1882; August F. Stubbe of Brownstown, residing in America since 1870.

## Sport Snap Shots

MORRIS MILLER

Jim Thorpe was sent to bat as a pinch hitter in a game which the Giants played at Waco the other day. He looked with disdain at the first ball served up to him, but to his surprise Bill Brennan, who was umpiring, called it a strike. Jim fouled the next, and thought the pitcher's hand offering nearly struck the ground in front of the plate the Indian took a vicious swing at it and missed. "That was a fine strike you called on me, Bill," he remarked to Brennan as he turned to go to the bench. "It was a better ball than the one you just struck at," was Bill's retort. "Huh," grunted Jim. "The only reason I struck at that one was because I knew you'd call it a strike anyway."

M. G. Milligan is the name of a young college player who has just been corralled by Jim Callahan of the Pirates. Cal saw Milligan play recently with the Alabama Technical Institute team, down in Georgia and he was quickly signed. Milligan, it turns out, was a member of the Portsmouth Virginia league team last year, but his professional record

did not keep him off his college team. He played under the name of Orr, which Portsmouth made an excellent record, not only as a pitcher but also as an infielder. Callahan believes that he has discovered another phenomenon.

In raising the \$175,000 necessary to make the first payment to Mrs. Helene Britton in purchase of the Cardinals, the promoters of the "community ownership" idea enlisted 700 stockholders, with holdings running from \$5,000 down to \$25. That is, the Cardinals are now owned by 700 people. The Cardinals are now owned by 700 people. The Cardinals are now owned by 700 people.

Charles A. Comiskey upon his return to Chicago from Texas modified somewhat the statements credited to him that the White Sox are sure winners. "If the pitchers hold up," said Comiskey in his revised interview, "the White Sox should win the flag."

The Pittsburgh club has fifteen players in plans to put out under option. William Neal plans a system of alliances something after that formed by Branch Rickey for the St. Louis Browns, under which the Pirates surplus can be developed and recalled.

The Pittsburgh club claims the youngest pitching staff in the majors. The average age is 22 years. "Veteran" Al Mamaux is 22 and "Youngster" Frank Miller is 19. The youngest on the staff is Milligan, a recruit recently picked up from an Alabama college. He is just 21.

Fred Mitchell, the Cubs are all right, pitchably, but how they do need brain development! In hopes of brightening their intelligence Mitchell will hold skull drills every day from now on. It's a fine comment that to veterans like Larry Doyle, Harry Walter, Vic Saler and so on.

Fletcher Low, the Dartmouth college athlete, who had a trial with the Boston Nationals, is now an instructor in chemistry in Dartmouth and will also act as assistant coach in athletics. After his trial with Boston he dropped into the minors and last year played in the Eastern league.

## BIG LEAGUE BALL SEASON IS OPENED

This is the cry today that starts the horse hide sphere darting around the green in the U. S. A. while fans dance a jubilee to the tune of martial music.

The most popular pole on the diamond is the flag pole, despite the fact that some 300 batsmen pay tribute to the swat-sticks. At any rate, the present state of the nation hasn't dimmed the eyes of fans who haven't enlisted.

## Suppose Fatimas were NOT Sensible

It isn't possible to fool men for long. Lincoln said that better than we could. ¶ Surely, if Fatimas were not as friendly to the throat and tongue as we say they are—if they did not leave a man feeling keen and "fit" after a long smoking-day—do you suppose that more Fatimas would be sold every day than any other high-grade cigarette? ¶ Remember these facts as you try Fatimas and just notice how much more comfort a sensible cigarette can give.
